---

01 PROFESSIONAL PROFILE

Full Stack Web Developer with expertise in the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in building responsive web applications, RESTful APIs, and efficient database models. Strong in both front-end and back-end development, including state management with Redux. Adept at problem-solving, debugging, and collaborating in cross-functional teams. Committed to staying updated with the latest web development trends and best practices.

02 PROJECTS

EMIS

- Developed a government Employee Management System to efficiently manage employee data across multiple departments.
- The system facilitates seamless handling of employee transfers, promotions, and report generation, while providing a user-friendly interface for viewing and managing employee records.

Tech Stack:
JavaScript | Redux | React | Node.js | Express.js | HTML5 | CSS3 | RESTful APIs | Git | SQL | Tailwind CSS

Paltoo

- A Pet care Website for pet owners who want the best for their furry companions
- Led backend development, utilizing Node.js, Express.js, and MongoDB to build a robust and scalable server-side application

Tech Stack:
HTML5 | CSS3 | JavaScript | React | Redux | Node.js | Express.js | MongoDB | RESTful APIs | Git | Responsive Web Design

CharityHero

- Developed a fundraising website for raising funds and making charity donations
- Led backend development, implementing features for login, signup, and donation request management

Tech Stack:
HTML5 | CSS3 | JavaScript | React | Redux | Node.js | Express.js | MongoDB | Git | RESTful APIs | Responsive Web Design

03 EXPERIENCE

JR Software Engineer, Bynaric Systems PVT LTD
May 2024 - September 2024

- Designed and developed web applications using the MERN stack, showcasing proficiency in full stack development.
- Constructed and styled responsive frontend components with ReactJS, HTML, CSS, and Tailwind, enhancing user experience.
